He called me yesterday while I was driving. I called him back today and left another message. We are playing phone tag. I will keep trying until success.

PS, Ex. 6 - Personal Privacy called me on Thursday eve and wanted an appointment. I called him on Friday to schedule again and did not get him. He said he is available after 430 most nights. Can you give him one last call tonight and let me know if you get him?

I thought someone had called him. There is no residence established at this location. That was EPA's scope for sampling at this point.

I think you can just email him back with that information. Den/Jerry?

Hey Rich,

I'm sorry if I dropped the ball on this one, but I thought we had already gotten back to Ex. 6 - Personal Privacy re: this request. I thought this was the "barn" well and that someone had talked to him about it?

Trish,

Nearly 2 months ago I emailed you to request that EPA test our well water in Dimock Township. Sadly, I did not receive any reply. Again, I would like to request that EPA test our well's water, as the well is located within 400 feet of a gas well (Lewis #2), and about 2000 feet from another gas well that has contamination issues. Our property is in the heart of the area where Cabot first began drilling for gas. I would appreciate a response from you.
